

Bio Dra Katuska Rivera

MD, is an Aesthetic, Antiaging and Laser Physician. Since 2009 has studied and developed protocols with lasers for skin rejuvenation and scar remodeling. Additionally, has a great experience with fillers, botulinum toxin, PDO threads and non-invasive devices for skin tightening and body contouring. Since 2012 chairs the Tattooing Smiles Foundation nonprofit institution dedicated to the treatment of post-burn scars in limited financial resource patients.
