

Dr. Zamira Yanine a Specialist in Aesthetic Medicine and Laser Application at Universidad del Rosario in Bogotá, Colombia.

She has a Diploma in Higher Education, Teaching and University Pedagogy at Universidad del Rosario and served as a teacher of the specialization of Aesthetic Medicine and Laser Application from 2006 to 2019, where she participated in different research works in Aesthetic Medicine.

She was the winner of the “Arturo Aparicio Jaramillo Award in Research” for the best postgraduate work in Medicine from the Universidad del Rosario: "Clinical study to compare the effectiveness of Dysport® vs. Botox® in the treatment of external canthus lines" (2006).

In addition to having completed part of her specialization studies in Aesthetic Medicine in

Washington DC, her medical diploma has been approved in the United States (2007), after having passed the exams (USMLE Step 1, USMLE Step 2 CK (Clinical Knowledge), Step 2 CS (Clinical Skills) that the ECFMG -Educational Commission for Foreign Medical Graduates- requires from foreign doctors.

She is a founding member of the Colombian Society of Specialists in Aesthetic Medicine-SOCOLME, where she has participated as part of the board of directors and was president of the organization from 2009 to 2011.

Dr. Yanine has also been invited to multiple conferences in Colombia and internationally to share her experience in non-invasive combined treatments for skin rejuvenation and non-surgical skin tightening.

Currently in her medical practice, Dr. Zamira Yanine customizes skin care regimens for a wide range of skin types and offers combined treatments and technologies for non-surgical and non-invasive rejuvenation. After more than 25 years practicing as a Medical Doctor and more than 15 years of practice in the field of aesthetic medicine, her value offer is focused on helping each of her patients to "project well-being" in their daily activities.

During the year 2020 "year of the pandemic" her efforts have focused on integrating specialized aesthetic medicine treatments to health and well-being, additionally offering nutritional coaching and strengths coaching to apply to daily life through alliances with other health professionals specialized in these areas.
